

Air Quality Fellowship Coordinator

Project Title	Air Quality Fellowship Coordinator
Project Summary	Exercise your international management and innovation skills by helping to develop the Department's new air quality monitoring fellowship program, which connects air quality experts from around the US to our US embassies overseas.
Country	United States
Agency	Department of State
DoS Office	M/PRI
Post	N/A
Section	N/A
Number of Interns	1

Project Description

The VSFS intern will help liaise with air quality fellows, manage a listserv and email newsletter to participating embassies and fellows, manage the relevant social media, and look for ways to make the program even better. The intern will work with the EPA and other agencies as well. The incumbent should have excellent organizational skills, political discretion and awareness, and a drive to help develop a first-of-its-kind program for the Department.

The air quality monitoring program was announced by Secretary Kerry and EPA Administrator McCarthy in a ceremony on February 15, 2015. More information can be found on state.gov/green.

This position is on the Innovation Team located within the Office of Management's Policy, Rightsizing, and Innovation. M/PRI is the central management analysis organization reporting directly to the Under Secretary for Management. The incumbent reports to the Envir
